## Profile

I am passionate about technology, always seeking to expand my knowledge and skills. With over a year of experience leading front-end development teams, I have grown both professionally and personally. My constant motivation lies in facing new challenges and finding innovative solutions in the technological field. My proactive approach and creative ability have enabled me to effectively tackle technical challenges, thus driving the success of projects.

## Employment

**Front-end developer** **Sep 2021 - Jul 2023**

Inlaze, Pereira

As the front-end project manager, my responsibility was to carry out the development of projects according to various designs, following best practices to ensure their efficiency. I supervised changes in the code, maintaining its quality and adjusting the structure according to the specific requirements of each project. Additionally, I provided comprehensive support to front-end developers, solving problems, and sharing knowledge to ensure the success of the company's projects.

**Front-end developer** **Sep 2023 - Present**

Innovating solutions, Remote

As a front-end developer, I handle the updating and creation of new projects, as well as the continuous improvement of code and structure. I pay special attention to optimizing existing projects by updating dependencies and enhancing application performance. Through debugging and code optimization, I aim to refine every aspect of the projects. Furthermore, I stand out for proposing new ideas and innovative solutions to address existing challenges.

## Certificates

**Professional software developer technician** **Dec 2019**

**Professional mobile development technician** **Dec 2019**

**Software development engineer** **Present**
